

# Sanitizer Plus Series® Systems

A new level of intelligence in water treatment

**SOFTENER/  
FILTRATION**

## SANITIZER Plus®

A Water-Right Brand

Sanitizer Plus® water treatment systems combine patented self-chlorinating technology\* with advanced electronics to perform like four units in one — softening, removing iron and manganese, and raising low pH levels. This advanced system, combined exclusive Crystal-Right™ media with a self-monitoring, deep cleaning system, reduces unpleasant odors and tastes from your water.

### System Features:

- Patented self-chlorinating technology
- Single-unit operation — no chemicals or added equipment
- Visual and audible “Check Salt” indicator
- Extended lithium battery backup
- Overrun capacity protection
- Flexible “adjustable cycle sequence” programming — saves salt and water
- Advanced history and diagnostic screens
- Service Alarms

*Effectively Treats  
Problem Water in  
a Single Pass*

- Crystal-Right™ media removes hardness, iron, and manganese
- Raises low pH levels
- Reduces unpleasant tastes and odors

**Water Right®**  
The Right Water  
For Life

water-right.com

\*Patent No. 6,726,817

Optional weather cover available for outdoor installations.

## Sanitizer Plus® Softener & Filtration Systems

### The Media

#### Crystal-Right™

media, a custom engineered zeolite, is exclusive to our Sanitizer Plus unit. In a single pass, this unique media removes hardness, reduces iron and manganese while raising low pH levels. **Learn more about Crystal-Right media at [www.mineral-right.com](http://www.mineral-right.com)**

### The Control Valve – Advanced, Powerful and Intelligent

Easy-to-read LED backlit screen clearly displays commands and functions. An audible chirp alerts you for “low salt” conditions or service needs.

This unique controller remembers all operating functions and will never lose programming due to a power failure. System regenerations are automatically activated according to actual water consumption and usage patterns.

Advanced history screens will show you the total number of gallons used, gallons used per day, even each hour of the day. This smart controller will also display total regenerations and errors.

Your local water treatment professional:

### Problem Water Solved

Sanitizer Plus® water treatment systems have a proven history of treating problem water. As Water-Right’s first self-chlorinating system, it remains one of the most innovative and effective systems on the market today. The Sanitizer Plus is unmatched in removing hardness, reducing iron and manganese while raising low pH levels — all in one single system. All of these benefits ensure protection of your household plumbing from staining, scale and mineral deposits, while providing your home with softened water.

### Chlorine Generator

This patented technology produces chlorine to prevent bacteria growth that can lead to foul odors inside the tank. When combined with our intelligent control valve and Crystal-Right™ media, the performance is unmatched in the water treatment industry.

**CRYSTAL RIGHT.**  
Custom-Engineered Zeolite Inside

Our chlorine generator is not intended for treating non-potable water.

# Impression Series® Softener

Soft water for you and your household

SOFTENERS

A Water-Right Brand

Whether you have hard municipal water or extremely hard well water, Impression Series® water softeners deliver the clear, soft water you want and need. Its easy-to-read LED screen and user-friendly console allows you to monitor all operating functions. It's true — nothing will last longer than your first Impression.

#### System Features:

- Solid-state microprocessor control
- Meter monitors and self-adjusts regeneration cycles based on household trend of water use
- Easily programmed for optimum performance
- Extended lithium battery backup
- Flexible "adjustable cycle sequence" programming — saves salt and water
- Advanced history and diagnostic screens

#### Soft Water For Your Entire Home

- Reduces hardness
- Softens household water using minimal salt and water
- Soft water prevents mineral buildup and keeps your appliances running smoothly

## Impression Series® Softeners

### The Meter

Water usage is electronically monitored and the system is automatically regenerated based on actual water consumption. The controller can anticipate higher water usage based on previous trends and regenerate the system, as needed, to ensure the availability of quality water. Likewise, when water usage is low, the system regenerates less often, saving on salt and water.

### The Electronics

The microprocessor captures all water softener operations, including gallons per day, total gallons, peak flow rates, and total regenerations. Time and history is held in memory and protected by a built-in battery backup.

### The Control Valve

A rugged, Noryl™ control valve handles high flow rates without dropping household water pressures — like when showers, toilets and faucets are all in use at the same time.

## Soft, Quality Water

Impression Series® water softeners provide the quality water you need for everyday life. Day and night, your water will now perform the way it should — creating richer lathers by using less soap, rinsing cleaner without film and residue. Your household plumbing will be protected from staining, scale and mineral deposits. Best of all, this system is built to last and easy to operate.

## Cabinet Design

The high profile cabinet (IMC) offers excellent space savings while still allowing up to 150 lbs salt storage. Its top sliding cover opens to a large tapered chute for ease of adding salt to the system without removing the cover.

The low profile option allows full access to the control valve for programming and servicing without having to remove the cover.

## SCALE PREVENTION

*Salt-free System*

Sizing & Specifications			
Unit	Sizing	Flow Rate	Tank Size
SP3 900	Up to 2 baths	12 gpm	9" x 48"
SP3 1000	Up to 4 baths	16 gpm	10" x 54"
SP3 1200	Up to 6 baths	22 gpm	12" x 52"

### The SP3 System

*Healthy Green Systems*

#### Pre Filter

- Removes chemicals & sediment
- Extends life of SP3
- Lasts for up to 35,000 gallons
- Radial carbon filter

#### Filter Prep

- Removes chlorine & heavy metals
- Improves taste & odor
- Controls algae & bacteria
- Removes herbicides & pesticides

#### Scale Prep

- Crystallizes hardness
- Prevents scale buildup
- No backwashing or electricity
- Healthy minerals stay in water
- Maintenance-free
- No chemicals

## FILTER PREP PRO V

*Salt-free System*

#### Removes and Controls:

- Sediment
- Chloramines
- Chlorine
- Heavy metals
- Taste/odor
- Scale
- Chemicals
- Bacteria
- Algae

#### 5 stage filtration:

**Catalytic Carbon, Garnet, Kdf cubes, Cat Cubes, filter ag.**

**Backwashing valve**

**No magnetics**

**Maintenance-free**

# MX CONDITIONING System

- Professional's choice WS1 Matrix Valve
- KDF removes chlorine, iron, metals and controls bacteria and algae
- Carbon removes chemicals, organics and improves taste and odor
- Softening media filters and conditions calcium and magnesium and reduces sediment to 20 micron
- Distributor bottom plate for 32k

Specifications		
Unit Size	Flow Rate	Tank Size
32k	14.5 gpm	10" x 54"
48k	19.7 gpm	12" x 52"
64k	24.6 gpm	13" x 54"

- Features:**
- Time based service alarm
  - Filters and conditions
  - Upgraded softening media
  - 14" x 14" brine tank
  - Cabinet models available

# HI-FLOW SOFTENING System

- Professionals choice WS1 Matrix Valve
- Time based service alarm
- Up to 36 fully adjustable cycles
- One tool services complete valve
- Cabinet models available

### General Sizing:

2 baths	32k
3 baths	48k
4 baths	64k
5 baths	80k

Specifications		
Flow Rate	Operating Pressure	Operating Temp
up to 27 gpm	125 psi	110°F

# BIG BLUE Hi-Flow Systems

Specifications		
Housing Options	Filter Options	Scale Filters Options
single 10" x 4-1/2"-3/4" to 1" ported	sediment	sp3 scale filter
single 20" x 4-1/2"-3/4" to 1-1/2" ported	carbon	up to 2 yr life w/carbon
double big blue 20"-1" ported	radial carbon	polyphosphate filters
triple big blue 20"-1" ported	custom filters	6-12 month life

Commercial and well options are available in all systems.
